

Dear Applicant:

Thank you for your interest in St. Anthony's Hospice!

St. Anthony's Hospice accepted its first patient in January, 1982. From that day forward, the staff and volunteers have been committed to the philosophy and mission of caring for persons with life-limiting illnesses and their families in Henderson, Union, and Webster Counties.

We function as a team of committed, competent professionals providing quality care, support and education to patients, their families, and our community.

St. Anthony's Hospice, in partnership with the community, seeks to maximize the quality and dignity of life for individuals facing life-limiting illnesses. Through a holistic approach, our professional team is honored to guide and empower patients, families, and caregivers during life's most sacred journey.

We sincerely thank you for your interest in helping us better serve our families.
